

St. Xavier's University, Kolkata

Department of Economics

Xaviers University Economics Society (XAVECOS)

ORGANIZES

4th Annual Economics Summit

Contemporary Issues in Economic Theory and Policy

CO-SPONSORED BY

INDIAN COUNCIL OF SOCIAL SCIENCE RESEARCH-EASTERN REGIONAL CENTRE

Call For Papers

The discipline of economics is continuously evolving and moving into uncharted areas. The development of economic theory has therefore moved into directions in the recent decades which were earlier not the exclusive domain of economics. For example, in addition to standard macroeconomics, microeconomics and development economics, economists have started theorizing the effect of culture, social norms, institutions etc. on economic growth and development.
